

Bridge Lessons

We have beginner/intermediate Bridge Lessons on Saturdays from 10:30 am to 11:30 am. The format is a brief lesson on a single topic followed by mentored bidding/playing of practice hands on the same lesson topic.

There is no fee for the lesson, and you can either drop in for a single lesson if the topic interests you or come every week. Please check the “Game Results & Calendar” section of the website to confirm that there will be a lesson and to see the weekly topics.

We hope to see you there!

NOTE: The lessons assume that you have at least beginner level knowledge of bidding and how to play a hand. If you aren't yet at that level and would like to learn - or if you have any other questions about the lessons - please contact us at (contact info to be added later)

NOTE: After the lesson, at noon on Saturdays, there is a regular 299er (299 or fewer master points) game. Please arrange for a partner if you plan to play in this game but if you don't have a partner there is a good chance that one of the class members will be happy to stay after the lesson and be your partner. The lessons and game are independent of each other; you can do either or both.
